Energy: Crisis managers for nuclear power plant, technicians in charge of electrical meters replacement.

Banking: bank employees, business services, banking advices...

Environment: Communication and marketing teams.

TESTIMONY

STÉPHANE F.

Department manager

The diversity of projects and the involvement of our customers and AKKA teams are a guarantee of success to address the very specific sector of "training". If innovation and R&D are naturally a priority, our offer relies also on the control of the exhaustive process, the deep analysis of the need, and the support of our customers up to the implementation of their digital products in order to meet at best the demands.
